| 6. I frequently do not feel like my hunger is satisfied | ___ | ___ |
| 7. I often feel guilty about the foods that I eat | ___ | ___ |
| 8. I crave certain foods | ___ | ___ |
| 9. Please list foods that you crave | ___ | ___ |
-

H. Clinic Procedures

Please initial, indicating you understand and agree with the following statements. Then sign below. If under the age of twenty-one (21) a parent or guardian must also sign.

___ The number of patients we see each day is limited and by appointment only. Missed appointments cause additional expense and inconvenience to other patients. Please notify us twenty-four (24) hours in advance if you are unable to keep your appointment.

___ Most health insurance companies (AETNA, Blue Cross, Medicare, and Medicaid) do not provide coverage for treatment of obesity. Therefore, we do not take any form of payment from third party companies and all services must be paid for at the time services are rendered by cash, check, or credit card.

___ I understand any treatments rendered are solely for the purpose of weight control. The diagnosis and treatment of other illnesses and disease are not the responsibility of this clinic. If I become ill, I should contact my personal physician or visit an urgent care facility. If I become ill, I will discontinue any diet or medication from this clinic until it is determined safe to resume the weight control program. (Please call if uncertain.)

___ If my treatment includes the prescription of appetite suppressant medication, I will carefully follow the instructions given, notify the doctor of any change in my medical history (especially heart or blood pressure problems) and not resell the medication nor will I share it with any friend or family member, ever. I will not visit other doctors for the purpose of obtaining additional or duplicate medication of the same type. I also have the right to see the physician prior to any medications prescribed.

___ All sales are FINAL. No transfers, exchanges or misuse of any product or services rendered other than the original patient of whom they are intended.

Patient's Signature: _____ Date: _____

Guardian's Signature (if applicable): _____ Date: _____

Staff Signature: _____ Date: _____

Weight Loss Consumer Bill of Rights

Florida Statute 501.0575 outlines the rights of consumers seeking professional weight-loss services.

Please read these rights below.

A. Warning: rapid weight loss may cause serious health problems. Rapid weight loss is weight loss of more than 1 ½ to 2 pounds per week or weight loss of more than 1% of body weight per week after the second week of participation in a weight loss program.

B. Consult your personal physician before starting any weight-loss program.

C. Only permanent lifestyle changes, such as making healthful food choices and increasing physical activity, promote long-term weight loss.

D. Qualifications of this provider are available upon request.

E. You have a right to:

1. Ask questions about the potential health risks of this program and its nutritional content, psychological support and educational components.

2. Receive an itemized statement of the actual or estimated price of the weight loss program, including extra products, services, supplements, examinations, and laboratory tests.

3. Know the actual or estimated duration of the program.

4. Know the name, address, and qualifications of the physical, dietician or nutritionist who has reviewed and approved the weight-loss program according to Section 468.505(1)(i) of the Florida Statutes.

This statute may be found on-line at <http://www.flsenate.gov/statutes/>.

Patient Informed Consent to Use Appetite Suppressants

I. Procedures and Alternatives

A. I have read and understand each of the following statements:

1. All prescription medications, including appetite suppressants, have labeling approved by the Food and Drug Administration. This labeling contains suggestions of the use of the medication. The labeling found on most appetite suppressants is based upon medical studies of less than twelve weeks using the dosages indicated on the labels.

2. Notwithstanding such labeling, I understand that my physician/PA based upon his experience, the experience of his colleagues, and other factors, may recommend the use of such medications for a period of time or at doses in excess of those recommended by the manufacturer's label. I further understand that such usage may not have been as systemically studied as that suggested by the labeling, and it is possible, as with many other medications, that serious side effects could occur.

3. After consulting my physician/PA, I believe that the probability of such side effects is outweighed by the potential benefit of the appetite suppressants being prescribed and/or provided to me, notwithstanding the fact that the dosage and/or term may exceed those recommended by the manufacturer.

B. I understand that it is my responsibility to follow my physician/PA instructions carefully and to report any medical problems immediately, regardless of whether I think that they may be related to my weight control program. I further affirm that I am not now pregnant and will report any pregnancy to my physician immediately.

C. I understand that there are other ways and programs that can assist me in my desire to decrease my body weight and to maintain any weight loss. In particular, a balanced diet combined with physical exercise is recommended, with or without the use of appetite suppressants. I understand that a program including a revised diet and physical exercise could prove successful without appetite suppressants if I followed it, even though I would probably be hungrier than if I used appetite suppressants. I further understand that without long term lifestyle changes it will be difficult to maintain weight loss.

II. Risks of Proposed Treatment

A. I understand that this authorization is given to me with the knowledge that the use of appetite suppressants poses various risks, including but not limited to, pulmonary hypertension, nervousness, sleeplessness, headaches, dry mouth, weakness, fatigue, psychological problems, medical allergies, high blood pressure, rapid heart beat, and heart irregularities. These and other possible risks could occasionally be serious or even fatal.

B. Risks Associated With Being Overweight or Obese I understand that remaining overweight or obese poses certain risks, among them being tendencies to high blood pressure, to diabetes, to heart attack and heart disease, to arthritis at the joints, hips, knees and feet, and to certain cancers. I understand that these risks may be modest if I am not very overweight, but that these risks increase significantly with any weight gain.

III. No Guarantees

I understand that much of the success of this program will depend on my efforts. Notwithstanding my efforts, I understand that there are no guarantees or assurances that the program will be successful. I also understand that I will have to continue watching my weight all my life if I am to be successful.

IV. Patient's Consent

- I understand and have been informed that I have the right to see the physician prior to any prescription medications written to me.
- I have read and fully understand this consent form, the attached Weight Loss Consumers Bill of Rights (see page 6 of this document), and I have had all concerns addressed by the physician or PA. Moreover, I have been informed by my physician or PA of the nature, risks, possible alternative treatments, possible consequences and possible complications involved in the use of appetite suppressants for the treatment of obesity and for weight loss. Nevertheless, I authorize my physician or PA to administer such treatment to me.
